<http://federalcartridge.com/>

See pages 6, 29, & 35 of catalog:

http://glarp.atk.com/2008/2008_Catalogs/FederalPremiumCatalog.pdf

Nosler – E-Tip rifle bullets

<http://nosler.com/>

Winchester Ammunition – ammunition with **Nosler** E-Tip

<http://www.winchester.com/products/catalog/cfrlist.aspx?bn=5&type=71>

Remington Ammunition – rifle ammunition loaded with the *Lapua Naturalis* copper bullet

http://www.remington.com/products/ammunition/centerfire/premier_green.asp

Nontoxic Shotgun Ammunition with Potential for Upland Game Birds

These are companies I found that make shotshells with #6 or smaller nontoxic shot; these and other manufacturers make #4 nontoxic shot.

Estate Cartridge Inc.

<http://www.estatecartridge.com/html/steel.htm>

Federal Cartridge Company

<http://federalcartridge.com/> See pages 41-43, 47, and 53 of catalog:

http://glarp.atk.com/2008/2008_Catalogs/FederalPremiumCatalog.pdf

Fiocchi Ammunition

http://www.fiocchiusa.com/cat_steel.html

Gamebore Cartridge Company, Ltd.

<http://www.gamebore.com/steel-competition-loads.asp>

HEVI-SHOT (Environmental Inc.)

<http://www.hevishot.com/images/panels/pheasant/HeviShot%20Pheasant%20Sell%20Sheet.pdf>

Kent Cartridge

<http://www.kentgamebore.com/velocity.asp>

Remington

<http://www.remington.com/products/ammunition/shotshell/waterfowl/>

Marketed as waterfowl loads, but have potential for upland birds
